Basma: That sounds great! Let's watch this film together.
Shady: (4)
2-Write what do you say in the following situations:- " 3 Marks "
1-Your sister wants to look at the sun. Give her some advice.
2- You express your feelings when your favourite team wins a match.
3- You are emphasizing the importance of remembering friends` birthdays.

B- Reading comprehension

3- Read the following passage and answer the questions: " 5 Marks "

Reading is a very helpful habit. It gives us new ideas and improves our language. When you read, you need to be in a quiet place. It is better to wear your reading glasses if it is necessary. You should read different topics. To remember what you read, it is a good idea to have a pen in your hand to underline or circle the important points. Try to discuss what you have read with your friends. People read for different goals. Some people read for enjoyment just to feel happy and spend a nice time. Others read for work. Students read for their study or research. All of us read the news and the weather report. We also read messages, emails, and letters that we receive.

A) Answer the following questions:

- 1- How is reading a good thing?
- 2- Why do you think you need to red in a quiet place?
- 3- How can you remember what you read?
- B) Choose the correct answer from a, b, c or d:
- 4- What do you think the word "Others " refer to?
- a) goals b) people c) points d) glasses
- a) discussion b) mysteries c) sadness d) pleasure

3- Read the following passage and answer the questions: " 5 Marks "

Long after the discovery of electricity, man found out that he could use the great power of water to produce electricity. Al first, man used waterfalls from high mountains. Later, he began to build dams across rivers to form a lake behind. The water is then allowed to fall under control through huge pipes to run turbines; machines which help to produce electricity. This runs into wires and is treated before it is used in homes and factories.

Dams have also been built along rivers in the world to make full use of the water, so It nuns to the driest and least fertile lands to prepare them for farming. Now man uses the sun to produce electricity. Scientists never stop inventing new ways to produce energy which don't pollute the environment. Nowadays, the environment has become the main interest of both the people and the environment to live healthy.

A) Answer the following questions:

- 1- What did man find out?
- 2- Do you think man like to use the sun to produce electricity? Why? Why not?
- 3- Why did man begin to build dams across rivers?
